DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group 2 in the reply filed on March 2, 2005 is acknowledged.

2. Claims 1-2, 6-8, 12-15, 18-19 and 22-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 2, 2005.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. Claims 3-5, 9-11, 16-17 and 20-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Sivula (US 6,795,711).

As to claims 3 and 9, Sivula discloses an information processing apparatus having a processor and a memory device (see col. 7, lines 59-62); said processor receiving a content transmission request including a content identification of a content determined by a user and an address of a receiving device determined by said user which is to receive data of said content (see col. 7, lines 20-25,62-67), from a separate

device different from said receiving device over a mobile communication network, said processor transmitting, over a network, said received content identification and said received address of said receiving device to a content data providing information processing apparatus which provides said content data (see col. 5, line 66 – col. 6, line 5).

As to claims 4 and 10, Sivula discloses the information processing apparatus wherein said processor transmits a Web page containing said content identification to said separate device over said mobile communication network (see col. 7, item 49-53).

As to claims 5 and 11, Sivula discloses the information processing apparatus according to claim 3 wherein said processor transmits further a user identification of the user to said content data providing information processing apparatus (see col. 7, lines 23-25).

Regarding claims 16-17 and 20-22, are corresponding stored program claim of the apparatus claims 3-4 and 9-10. Therefore they are rejected for the same reason shown above.
